

Slimline Commercial Pedestals

Touchscreen Control Interface

SMART AND SIMPLE POWER CONTROL AT YOUR FINGERTIPS.

Adjust lighting controls with the press of the button or a click of the mouse with Milbank's new touchscreen control Commercial Pedestals.

Features

- UL Listed as service equipment
- Vandal-resistant, secure and attractive design
- Touch screen interface for programming up to four lighting circuits independently
- Control parameters can be securely accessed and edited online
- Built-in 10/100Mbps ethernet/IP port for messaging
- Convenient 20 amp GFI receptacle on deadfront for charging equipment on-site
- Customer compartment with distribution and control equipment with swing dead front door, secured with both a hasp/latch and draw latch outer door
- Utility metering compartment protected with a hinged hood, increasing resistance to meter vandalism
- Small footprint
- Wireway located on left side of pedestal for utility incoming wire, allowing pedestal to be mounted with back very close to a wall (14")
- 200 amp main available
- Voltage range: 120V–480V
- Compatible with both ringless and ring-type meter sockets, 4–7 terminals
- Pedestal mounting base option saves time and labor to install on a cement pad—no anchor bolts required
- Powder-coated G90 galvanized steel, raw, anodized or powder-coated aluminum and stainless steel exterior options
- Available in any color upon request

The straightforward user interface and responsive touchscreen make adjusting control parameters and testing circuits quick and easy.

Utility requirements for this equipment may vary. Always consult the serving utility for their requirements before ordering or installing equipment.
